TRS students chapter organized

Seminar on

EVangelise '23: iCreate's own Electric Vehicle Innovation Challenge

Event Overview:

EVangelise '23 is an electric vehicle innovation challenge presented by iCreate, and during the roadshow, attendees were introduced to the concept of EVangelise '23 and the RISC-V Contest. The event focused on fostering groundbreaking and industry-ready innovations in the field of electric vehicles.

Inaugural Ceremony:

The EVangelise '23 Roadshow, organized by iCreate in association with Birla Vishvakarma Mahavidyalaya (BVM) TRS student chapter, was a significant event aimed at promoting electric vehicle (EV) innovation. This event was held on the 22nd of July, 2023, at the BVM Auditorium, commencing at 10:00 am. It was inaugurated by Dr.Indrajit Patel, Principal BVM, Ms. Gladish Nair, Senior manager iCreate, Dr. Vinay Patel, Head Mechanical Dept and Advisor TRS student chapter, Dr. Rashesh Mehta, Head Electrical Department and iCreate team. More than 250 Students have attended an event.

The event was made possible through the dedicated efforts of the Dr. Vinay Patel, Advise TRS Chapters, Prof. Ashish Thakar, Dr. Mehfuza Holia and Prof. Dharita Patel- Coordinators of an event.

Objectives:

The primary objectives of the EVangelise '23 Roadshow were as follows:

1. Introduce EVangelise '23 and RISC-V Contest: The roadshow aimed to familiarize attendees with the EVangelise '23 challenge and the RISC-V Contest, ensuring that they understood the core concepts and purpose behind these initiatives.
2. Promote Industry-Ready Innovations: One of the key objectives was to emphasize the importance of creating innovative solutions in the electric vehicle sector that are not only groundbreaking but also practical and ready for industry adoption.
3. Highlight Categories and Themes: Attendees were provided with a comprehensive overview of the various categories and themes available in EVangelise '23, encouraging them to explore different facets of electric vehicle innovation.
4. Clarify Expectations and Rewards: The roadshow sought to set clear expectations for participants in the challenge. It also aimed to elucidate the potential rewards awaiting those

who excel in the competition, fostering motivation and understanding of the competition's significance.

Key Takeaways:

- **What is EVangelise '23 and RISC-V Contest:**
The roadshow began by shedding light on the EVangelise '23 event and the RISC-V Contest. Attendees learned that EVangelise '23 is an initiative to encourage and support electric vehicle enthusiasts in their pursuit of innovation. The RISC-V Contest is an integral part of this initiative, providing a platform for showcasing and rewarding innovative ideas in the EV domain.
- **Creating Game-Changing, Industry-Ready Innovations:**
The roadshow emphasized the importance of creating innovations that can transform the electric vehicle industry. It stressed the need for solutions that are not only groundbreaking but also practical and ready for industry adoption.
- **Categories and Themes:**
During the event, attendees were introduced to the various categories and themes available in EVangelise '23. These categories and themes offered participants a diverse range of opportunities to contribute to the electric vehicle ecosystem, from vehicle design to energy efficiency and beyond.
- **Expectations and Rewards:**
The roadshow provided insights into the expectations set for participants in the challenge. Attendees learned about the rigorous evaluation criteria and the potential rewards awaiting those who excel in the competition. It was made clear that EVangelise '23 is not just a competition but a platform for growth and recognition.

Outcomes:

The EVangelise '23 Roadshow achieved several notable outcomes, including:

1. **Increased Awareness:** The event significantly raised awareness about EVangelise '23 and the RISC-V Contest, attracting the attention of a broad audience of EV enthusiasts.
2. **Inspired Innovation:** Attendees were motivated to think creatively and embark on projects that can lead to industry-changing innovations in the electric vehicle sector.
3. **Clarified Expectations:** The roadshow ensured that participants have a clear understanding of the competition's expectations and evaluation criteria, allowing them to prepare more effectively.
4. **Community Building:** The event provided an opportunity for like-minded individuals to connect, fostering a sense of community among electric vehicle enthusiasts.
5. **Pathway to Recognition:** The roadshow set the stage for participants to embark on a journey that could lead to recognition, awards, and a significant impact on the EV industry.

Summary:

The EVangelise '23 Roadshow at Birla Vishvakarma Mahavidyalaya on the 22nd of July, 2023, was a promising event that aimed to inspire and engage EV enthusiasts while fulfilling its key objectives. The event offered a comprehensive understanding of the challenge, its significance, and the opportunities it presents to aspiring innovators in the electric vehicle sector.

The roadshow left attendees motivated and better informed about EVangelise '23, setting the stage for an exciting journey towards transforming EV dreams into reality.

For further details and participation information, interested individuals were encouraged to visit the official EVangelise '23 website and explore the possibilities that await in the world of electric vehicle innovation.

We look forward to the remarkable innovations that will emerge from EVangelise '23 and the positive impact they will have on the future of electric mobility.

Glimpses of an Event:
