Expert Talk on
"Chandrayan-3 & Aditya-L1: Missions of Hope for the Future of Space Exploration"

Date: 30-09-2023, 12:00 noon

Event Overview:

Charutar Vidya Mandal's Birla Vishvakarma Mahavidyalaya (BVM) celebrated its Platinum Jubilee with a remarkable event - an expert talk on "Chandrayan-3 & Aditya-L1: Missions of Hope for the Future of Space Exploration." Er. Darshan K Patel, Group Director at the Space Applications Centre (SAC) of ISRO, delivered an enlightening presentation. The workshop aimed to explore recent space missions and advancements in the field of space exploration, highlighting the collaborative efforts of ISRO with NASA and other international space agencies. It attracted 55 participants, including faculty members and students.

Inaugural Ceremony:

The inaugural ceremony of the workshop was inaugurated by Prof. (Dr.) Indrajit N. Patel, the Principal of BVM, Prof. (Dr.) Vinay J. Patel, Faculty Advisor of the TRS BVM Student Chapter, Er. Darshan K Patel, Group Director at the Space Applications Centre (SAC) of ISRO, Prof. Ashish Thakar and Dr. Mehfuza Holia, Coordinators of an event. Prof. (Dr.) Indrajit N. Patel, the Principal of BVM, delivered an inspiring inaugural address, highlighting the institution's unwavering commitment to advancing scientific knowledge. His words set a tone of anticipation and enthusiasm for the event. Prof. (Dr.) Vinay J. Patel, Faculty Advisor of the TRS BVM Student Chapter, welcomed the attendees, emphasizing the importance of the workshop in facilitating the exchange of knowledge and ideas. This ceremony not only formally opened the event but also symbolized the shared dedication of the academic community to exploring the frontiers of space exploration and research.

Objectives:

The primary objectives of the workshop were as follows:

1. To provide insights into recent space projects and missions conducted by ISRO.
2. To explore the potential of current and future missions for the advancement of space exploration.

Key Takeaways:

Er. Darshan K Patel's expert talk yielded the following key takeaways:

- Understanding recent space projects undertaken by ISRO and their significance.
- Insight into the collaborative efforts between ISRO and NASA, contributing to global space research.
- Exploration of the opportunities and challenges in space exploration, inspiring attendees to engage further in the field.

Outcomes:

The workshop generated several notable outcomes:

- Enhanced Knowledge: Participants left with a deeper understanding of space exploration and ISRO's contributions to this field.
- Inspiration: The session inspired students and faculty members to explore and contribute to space research.
- Networking: The event encouraged networking and collaboration among attendees, fostering an environment of shared knowledge and ideas.

Glimpses of an Event:
