Report on Expert Lecture by Dr. Debanik Roy
On
"Indigenous Technology of Robot Grippers - From Concept to Realization"

On 5th April 2025, Dr. Debanik Roy, a distinguished scientist at the Bhabha Atomic Research Centre (BARC), delivered an expert lecture on the topic "Indigenous Technology of Robot Grippers - From Concept to Realization" at B V Mahavidyalaya, Vallabh Vidyanagar. The lecture was organized by the Department of Mechanical Engineering in collaboration with the Robotics Club of BVM, and it was attended by faculty, researchers, and students from various engineering disciplines.

Dr. Roy, an expert in the field of robotics, focused on the advancements in the design and development of robotic grippers—the critical "hands" of robots that facilitate the manipulation of objects across various industries. The lecture covered several important aspects, including the evolution of grippers, emerging technologies, and specific projects related to flexible, soft, and tiny grippers. Dr. Roy also highlighted significant indigenous contributions, showcasing the increasing role of India in developing these technologies.

Dr. Debanik Roy's expert lecture provided a comprehensive and insightful overview of the evolving technology behind robot grippers. He successfully bridged the gap between theoretical concepts and practical applications, providing the audience with a deeper understanding of the challenges and innovations in this field. The lecture underscored the importance of indigenous research and development in advancing robotics in India, with a special focus on applications that are both innovative and relevant to the Indian context.

The session ended with a Q&A where Dr. Roy answered several questions from students and faculty members, further enriching the understanding of the topics discussed.

The lecture was highly appreciated by the attendees for its depth of content and clarity of explanation. Many students expressed a newfound interest in the field of robotics and soft robotics in particular.

The program was coordinated by Prof. (Dr.) H. P. Patolia and Prof. (Dr.) R. B. Gandhi. TRS faculty members Prof. (Dr.) M. S. Holia, Prof. J. R. Koisa, Prof. (Dr.) A. M. Thakkar, and TRS Students Chapter members had extended their support to make the program successful.

Expert talk on "Indigenous Technology of Robot Grippers - From Concept to Realization"

By Dr. Debanik Roy, BARC scientist

Date: Saturday, April 5, 2025, Time: 2:30 PM - 4:00 PM

Venue: C207, Mechanical Engineering Department, BVM
